

# SuperVisor<sup>®</sup> U<sup>™</sup>

**CODE 3<sup>®</sup>**  
A PUBLIC SAFETY EQUIPMENT COMPANY  
www.code3pse.com

Code 3's highly successful SuperVisor LED Front Windshield Mount Light is now available in a **Universal Version**. YES! One size fits all (or almost all) vehicles and Code 3 includes multiple brackets that can be used to fit your vehicle.

**TORUS<sup>™</sup>**  
LED TECHNOLOGY

## Key Benefits:

- ▶ Intelligently designed to fit the curves and angles of most vehicle windshields, the SuperVisor U has all the great benefits of the custom SuperVisor, including “low to no” flashback into the driver’s eyes. The adjustable side-shield light-blocking plates have been designed specifically to block out flashback light.
- ▶ Designed with the latest LED technology, the SuperVisor U has bright, efficient LEDs: Independent flashing Torus light heads that go from stealth to a wealth of light in an instant.
- ▶ Smartly designed bracketing and rubber gaskets allow this two part (one on driver’s side and one on passenger’s side) interior light to be mounted to almost any vehicle. The SuperVisor U comes with (4) outer mounting bracket sets, (1) inner mounting bracket set, and a set of (4) slotted mounting brackets along with threaded fasteners, and (2) types of bracket washers to fill gaps when necessary.
- ▶ \*Fits on Ford NGPI Sedan, Dodge Charger, Chrysler 300, Dodge Durango, Toyota Tundra, Chevy Cobalt, Chevy Tahoe, Dodge Challenger, Ford Explorer, Crown Vic, Dodge Ram Pickup, Toyota Prius (plus many more)
- ▶ **When takedown lights are needed, simply adjust the angle of the (2) takedown lights to the desired position. No other internal lightbar has this capability.**
- ▶ **If your vehicles change, you can still use the SuperVisor U simply by transferring it to another vehicle.**

## Design Features

- Contoured for installation against the upper interior of windshield between the sun visors and glass.
- No drilling required for mounting and looks like a part of the vehicle at 2” tall.
- Torus LEDs available in red, blue, amber, and white.
- Independent flash patterns on each head
- When ordered with Takedowns, the TDs are easily adjustable to the desired position.
- Can be wired to external flasher to flash takedown lights only
- Draws less than 6 amps on average

## Specifications

- Torus Lighthead Dimensions: 1.075” H x 3.0” W x 1.69” D (27.305 mm x 76.2 mm x 42.93 mm)
- Weight: 7.5 lbs
- 12 VDC operation
- Reverse Polarity Protected
- 5-Year Warranty on LEDs
